Highway 136 Construction Update

The construction on Highway 136 is continuing to progress into its fourth month. Phase 1 from K Street to H Street has been completed. The center line was recently painted.

The construction crew will need to come back to this area and correct some water runoff issues with the sidewalks. There will be at least 2 places where the sidewalk will need to be removed and re-poured. Please use caution during this process.

Phase 2, H Street to K Street has also been completed in the past week. Both lanes are now open to local traffic. Truck and semi traffic will still need to use the detours.

Phase 3, K Street to Irvin Drive is progressing. Currently, the south lane has been poured. Hawkins Construction is now working on prepping the entry points for the streets and the driveways that meet up with Highway 136. If weather permits, Hawkins should be opening the south lane up to eastbound traffic only and move construction to the north lane. Again, there will only be one-way traffic permitted during this time.

There will be many busi-

nesses affected during this time. Here is a list of those businesses and alternate routes that you can use once the Eastbound lane has been reopened and the Westbound lane has been closed.
